THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATIOIN. PLEASE REVIEW IT CAREFULLY.

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) is a federal program that requires that all medical and dental records and other individually identifiable health information used or disclosed by us in any form, whether electronically, on paper or orally, are kept properly confidential. This Act gives you, the patient, significant new rights to understand and control how your health information is used. HIPAA provides penalties for covered entities that misuse Protected Health Information (PHI).

This Notice of Privacy Practices describes how we may use and disclose your Protected Health Information (PHI) to carry out treatment, payment or health care operations (TPO) and for other purposes that are permitted or required by law. It also describes your rights to access and control your protected health information. "Protected health information" is information about you, including demographic information, that may identify you and that relates to your past, present or future physical or mental health or condition and related health care services.

For example, your protected health information may be provided to a physician to whom you have been referred to ensure that the health care professional has the necessary information to diagnose or treat you.
Payment: Your protected health information will be used, as needed, to obtain payment for health care services. For example, obtaining approval for a hospital stay may require that your relevant protected health information be disclosed to the health plan to obtain approval for the hospital admission.
Healthcare Operations: We may use or disclose, as-needed, your protected health information in order to support the business activities of your physician's practice. These activities include, but are not limited to, quality assessment activities, employee review activities, and conducting or arranging for other business activities. We may use or disclose your protected health information, as necessary, to contact you to remind you of your appointment. We may call your home and leave a message (either on an answering machine or with the person answering the phone) to remind you of an upcoming appointment, the need to schedule a new appointment or to call our office. We may also mail a postcard reminder to your home address. If you would prefer that we call or contact you at another telephone number or location, please let us know.

You may revoke this authorization, at any time, in writing, except to the extent that your physician or the physician's practice has taken an action in reliance on the use or disclosure indicated in the authorization.

Your Rights

The Following is a statement of your rights with respect to your protected health information.

You have the right to inspect and copy your protected health information. Under federal law, however, you may not inspect or copy the following records; psychotherapy notes; information compiled in reasonable anticipation of, or use in, a civil, criminal, or administrative action or proceeding, and protected health information that is subject to law that prohibits access to protected health information.

You have the right to request a restriction of your health information. This means you may ask us not to use or disclose any part of your protected health information for the purposes of treatment, payment or healthcare operations. You may also request that any part of your protected health information not be disclosed to family members or friends who may be involved in you care or for notification purposes described in this Notice of Privacy Practices. Your request must state the specific restriction and to whom you want the restriction to apply.

Your physician is not required to agree to a restriction you may request. If your physician believes it is in your best interest to permit use and disclosure of your protected health information, your protected health information will not be restricted. You then have the right to use another Healthcare Professional.
